ARLINGTON PUBLIC SCHOOLS TERM CONTRACT

Term Contract with Arlington County Public Schools awarded in 2011.

Task orders have included rapid post-earthquake assessment studies on 15 public school buildings, consultation on the county's planetarium facility and peer review for deteriorated concrete wall at one of the middle school building.

During the rapid post-earthquake assessment of Thomas Jefferson Middle School, it was

determined that the theatre was seriously damaged from the earthquake and needed additional in-depth investigation. Ehlert/Bryan, Inc. performed the necessary investigations and prepared repair documents. We served as the prime consultant, managing the bidding process and managing the project through the entire construction administration process.
