KOREAN CENTRAL PRESBYTERIAN CHURCH CENTREVILLE, VA

A new 170,000 SF church complex that includes a 2,000 seat primary sanctuary, a 500 seat secondary sanctuary, reception area, 10,000 SF multi-purpose hall, and classroom, office, and support spaces. There is a 10,000 SF partial basement. The building is one and two stories in height and is constructed on a sloping site with the one story portion of the building at the high end of the site. Construction was structural steel and the foundations used were standard spread and strip footings.
