## LOUDOUN CO. PUBLIC SCHOOLS TERM CONTRACT

Term Contract with Loudoun County Public Schools awarded in 2009.

Task orders have included feasibility studies, design of new structural systems, and concrete crack investigations and reports. We have also performed construction administration for repairs that were needed and made recommendations regarding urgency of repairs. We have designed a high school stage expansion and repair and lintels for various schools in the county.

Additionally, the County is exploring building a new administration building and our firm has provided work cost estimates dependent upon which option they choose.
