COHEN CAREER SERVICES CENTER WILLIAMSBURG, VA

The Sherman & Gloria H. Cohen Career Center was completed for the 2010-2011 school year and is utilized by students, faculty, employers, and visitors to the College.

It is 11,000 square feet and includes 15 interview rooms, an 80-person presentation room with videoconferencing capabilities, and a rooftop patio with a full view of the nearby stadium.

The signature element of the new building is the large open atrium that acts as a waiting area for students with an interview or by those just looking for a quiet place to study.

The project has been certified LEED Gold.
