EXPERIENCE

Mr. Salmin has 19 years of structural design experience and has been licensed since 2003. He has extensive experience designing mid and high-rise conventionally reinforced and post-tensioned concrete structures up to 32 stories tall. He has additional experience designing steel, wood, masonry, ICF, Epicore/Versa-Dek, and precast concrete structures. Mr. Salmin's experience includes the design and production of contract documents for a wide variety of structures, including apartments, condominiums, mixed-use, hospitals, office buildings, retail, churches, schools, hotels, and parking garages. He also has experience with the evaluation, renovation, and repair of existing structures.

Mr. Salmin was the project manager for the following projects:

- Merrifield Center, Human Services Building – Fairfax, VA
- Fairfax County Department of Vehicle Services, Alban, Jermantown, and West Ox Maintenance Facilities – Fairfax County, VA
- Signet – McLean, VA
- Kingstowne Block M&N – Alexandria, VA
- The Madison – Alexandria, VA
- Haymarket Retail Shops, Building 4, 5, & 6 – Haymarket, VA
- Veterans Affairs Medical Center – Richmond, VA & Washington, DC
- 1427-1429 Rhode Island Avenue, NW – Washington, DC
- American University, East Campus Development – Washington, DC
- 1525 14th Street – Washington, DC
- 2251 Wisconsin Avenue, NW – Washington, DC
- 4990 Fairmont Avenue – Bethesda, MD
- Washington Gas Fleet Maintenance Facility – Rockville, MD
- Compass Health, Community Cancer Center – East Lansing, MI
- Aldara Medical Center – Riyadh, Saudi Arabia
- Mall of San Juan, Parking Garage – San Juan, Puerto Rico
